

Professor TW Lam as Speaker at the HK Society of Medical Genetics Workshop

Hong Kong Society of Medical Genetics hosted a scientific seminar on “bioinformatics in clinical application” on November 19, 2016 at Queen Elizabeth Hospital (Link). Prof. TW Lam was invited to give a talk entitled “Fast and Simple Bioinformatics Support for NGS-based Clinical diagnosis”. The other speakers include Dr. HM Luk of Department of Health and Dr. Chris TL Chan of Hong Kong Sanatorium Hospital.

During the event, L3B had the opportunity to showcase Helicube to the audience.
